CAREER OBJECTIVE

I'm an IT student with experience in Core Java, Advanced Java, Oracle SQL, and full-stack web development. I've built projects using Spring Boot, Hibernate, JDBC, and front-end tools like HTML, CSS, and JavaScript. I'm focused on writing clean code and learning more about backend systems and security.

TECHNICAL SKILLS

Core Java

- Proficient in OOP concepts
- Strong knowledge of Interfaces, Abstract Classes, and Method Overriding/Overloading.
- Worked with Collections API
- Implemented custom exception classes for robust error handling in real-time applications.

SQL

- Having extensive Knowledge in writing SQL Queries
- Excellent at Performing 'CRUD' operations on RDBMS
- Extensively worked on SQL statements like DQL, DDL, DML, DTL, and DCL
- Hands on Experience in Monitoring MS-SQL, Oracle SQL
- Proficient in Normalization on database tables.

Advance Java

- Experience with JDBC for database connectivity.
- Familiar with HTTP request/response lifecycle.
- Strong knowledge of Servlets and JSP (Java Server Pages).
- Integrated Java web apps with MySQL
- Performed server-side form validations.

EDUCATION

Bachelor of Technology (Information Technology)	2025
Balasore College of Engineering and Technology, Balasore, Odisha	8.49

PROJECT

- ❖ **Loan Approval Prediction System**
  Tech Stack: HTML, CSS, JavaScript, Python (ML), Tkinter GUI.
  – Developed a machine learning model to predict loan approval status.

INTERNSHIP

PXE, DRDO (2024)

Project: Range Meeting Summarizer (Summarized key points from video/audio)

Duration: 1 month
